

## Welcome to Norcon Computers

Norcon Computers Ltd was founded in July 1983 by Robert Green, who owned a chain of CTN stores in the Derby area, and Kim Laws, who came from an IT education background.

Today we are one of the country's leading suppliers of Electronic Point of Sale (EPoS) systems to retail newsagents and convenience stores, with our Response solution of EPoS tills, hand held terminals, wholesaler links, broadband connections and modules to handle stock and financial control.

We also lead the field in retail newspaper and magazine sales management software, developing our News Slave products to help retailers efficiently handle home news deliveries, including one-click downloads of wholesaler updates and replenishment initiatives to minimise returns.

Our outstanding level of customer service has been recognised by all the country's main newspaper and magazine wholesale suppliers. In addition, the Daily Telegraph's 'Business Builder' series featured Norcon Computers as a 'leading supplier'.

### News Slave for Windows

Designed by newsagents for newsagents, this system will save time, minimise returns and waste, and maximise profitability.

### Response EPoS

A flexible electronic point of sale solution for all convenience retailers, Response offers security, efficiency and stand-alone network resilience.

### Norcon Support Packages

At Norcon Computers Ltd, we can provide a support package to meet your needs, using our own engineers for support.

All supported users are upgraded free of charge - a quotation can be provided for non-supported users.

Our aim is always to be innovative and to provide the very best software for our customers. We welcome feedback and suggestions from all our customers on the performance of the installed software, incorporating the most useful enhancements or changes into future software releases.

Our Support Team is available 364 days a year on 08456 432 431, or [support@nclimited.co.uk](mailto:support@nclimited.co.uk).
